TWIN CITIES

WASHINGTON, DC

Dear Judge Farnan:

In light of the Court's order denying Fairchild's motion for reconsideration of the issue of the number of claims and groups for trial during yesterday's pretrial conference, Power Integrations hereby submits the formal list of claims and groups which it has previously provided Fairchild on several occasions to permit the Court to finalize the pretrial order. The following replaces the description in paragraph 9 of the Joint Pretrial Order as filed (D.I. 360):

9. Power Integrations identifies the asserted claims and part groupings for trial as follows:

(a) Group 1: Fairchild parts with infringing high-voltage transistors. This group includes the following parts: FSD200; FSD200B; FSD210; FSD210B; FSD210H; FSD210HD; FSD211; FSD500; FSDL321; FSDL321L; FSDH321; FSDH321L; FSDL0165RN; FSDM0265RN; FSDM0265RNB; FSDH0265RN; FSDL0365RN; FSDL0365RNB; FSDM0365RN; FSDM0365RNB; FSDL0165RL; FSDM0265RL; FSDH0265RL; FSDL0365RL; FSDM0365RL; FSDM311; FSDM0565; FSDM07652; FSDH565; FSDH0165; and the FAN7601 series.

Group 1 products are accused of infringing claims 1 and 5 of the '075 patent.

(b) Group 2: Fairchild parts with infringing frequency modulation circuits. This group includes the following products: FSD200; FSD200B; FSD210; FSD210B; FSD210H; FSD210HD; FSD211; FSD500; FSDL321; FSDL321L; FSDH321; FSDH321L; FSDL0165RN; FSDM0265RN; FSDM0265RNB; FSDH0265RN; FSDL0365RN; FSDL0365RNB; FSDM0365RN; FSDM0365RNB; FSDL0165RL; FSDM0265RL; FSDH0265RL; FSDL0365RL; FSDM0365RL; FSCM0565R; and FSCM0765R.

Group 2 products are accused of infringing claim 1 of the '876 patent.

FISH & RICHARDSON P.C.

The Honorable Joseph J. Farnan, Jr.

Page 2

(c) Group 3: Fairchild parts with infringing soft start circuits. This group includes the following products: FSD200; FSD200B; FSD210; FSD210B; FSD210H; FSD210HD; FSD211; FSD500; FSDM311; FSDM0265RNB; FSDL0365RNB; and FSDM0365RNB.

Group 3 products are accused of infringing claims 9 and 14 of the '366 patent (except for the FSDM311 which is only accused of infringing claim 9).

(d) Group 4: Fairchild parts with infringing frequency modulation circuits and voltage mode control. This group is a subset of group 2 above and includes the FSD200, FSD200B, FSD210, FSD210B, FSD210H, FSD210HD, FSD211, and FSD500.

Group 4 products are accused of infringing claims 1 and 4 of the '851 patent.

This letter also serves to confirm, as indicated on the record at yesterday's Pretrial Conference, the parties have agreed to the proposals Power Integrations previously made in the Joint Pretrial Order at paragraph 26 (regarding demonstrative exhibits) and paragraph 58 (regarding juror notebooks). Power Integrations further notes that the internal cross-reference in paragraph 38 of the proposed pretrial order incorrectly cites to paragraph 25, when the referenced discussion regarding exhibits and witnesses is actually found in paragraph 28.

If the Court would prefer that we submit a corrected pages for the Joint Pretrial Order reflecting these changes, we would be happy to do so.

Respectfully,

William J. Marsden, Jr.

cc: Clerk of Court (via ECF and hand delivery)  
Steven J. Balick (via ECF and hand delivery)  
G. Hopkins Guy (via e-mail and first class mail)
